» Advantages

GLADIO is a gate valve where, in addition to the aesthetic side, our engineers have managed the particular features and details, trying not to leave anything to chance.

In order to be able to cover a wide range of use, GLADIO is standard equipped with double flanging, one for the fitting with square flange for agricultural use of standard dimensions and a DIN PN 10 one, or ANSI 150 for the American market.

Due to its special design feature, GLADIO is a gate valve called “anti-clogging” and can be installed in any position.

Large-size self-cleaning seat.

Security: GLADIO has a robust protective casing, which completely isolates the moving parts of the gate valve.

Set-up for manoeuvre lever attachments on the valve body.

Stainless steel screws and tie rods to prevent corrosion.

Equipped with an open/closed position indicator.

Simple maintenance: all parts, when worn out, are easily replaceable.

Complies with the Directive 97/23/CE (**PED**).

Materials				
1	Body	Cast iron	EN-GJL-250	
2	Blade	Stainless steel	AISI 304	
3	Ring	Stainless steel	AISI 304	
4	Gasket	HNBR		
5	O-Ring	NBR		
6	Gland packing	Fibre		
7	Gasket	NBR		
8	Stud	Stainless steel	AISI 304	
9	Gland packing box	Cast iron	EN-GJL-250	
10	Washer	Stainless steel	AISI 304	
11	Nut	Stainless steel	AISI 316	
12	Position indicator	Steel		
13	Screw	Stainless steel	AISI 304	
14	Blade connection	Brass	CW617N	
15	Nut	Steel		Zinc-plated
16	Stem	Brass	CW614N	
17	Screw	Stainless steel	AISI 304	
18	Clamp	Steel		Zinc-plated
19	Screw	Stainless steel	AISI 304	
20	Casing	PP		
21	Tow packing	Fibre		
22	Cap	Cast iron	EN-GJL-250	
23	Washer	Stainless steel	AISI 304	
24	Stuffing-box	Brass	CW614N	
25	Fork	Brass	CW617N	
26	O-Ring	NBR		

Connection	Square flange / PN 10 - ANSI 150
Limit	0°C (+32°F) without liquid +60°C (+140°F)
Notes	The max. working pressure (PN) means at a room temperature of about 23°C.
Notes	>> Riv 164 Pneumatic jack
Notes	MINIMUM OPERATING PRESSURE: 6" , 8" = 6 Bar (87 Psi)
Notes	MAXIMUM OPERATING PRESSURE: 10 Bar (145 Psi)
Notes	Please use flanges EN1092-1 type 1 (Welding Neck)
